### **DETAILED ACTION**

The following action is in response to the amendment filed for application 10/635,7573 on February 23, 2005.

### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Robert Pous on April 6, 2005.

The application has been amended as follows:

In claim 18:

on line 1, "15" has been replaced --17--.

In claim 19:

on line 1, "15" has been replaced --17--.

In claim 20:

on line 1, "15" has been replaced --17--.

***Drawings***

The drawings were received on February 23, 2005. These drawings are approved.

***Election/Restrictions***

Claims 1, 5, 9, 13, 17, 21, 25, and 29 are generic and allowable. Accordingly, the restriction requirement as to the encompassed species is hereby withdrawn and claims 3, 6, 11, 14, 19, 22, 25, and 30, directed to the species of other transmission controls are no longer withdrawn from consideration since all of the claims to this species depend from or otherwise include each of the limitations of an allowed generic claim.

In view of the above noted withdrawal of the restriction requirement as to the linked species, applicant(s) are advised that if any claim(s) depending from or including all the limitations of the allowable generic linking claim(s) be presented in a continuation or divisional application, such claims may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 44 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

.

***Allowable Subject Matter***

Claims 1-32 are allowed.

The following is an examiner's statement of reasons for allowance: the prior art of record fails to show or render obvious the hydraulic pressure control apparatus as claimed, and particularly including a switching valve which is switched from a first position to a second position according to a change in a position of the driving state switching valve when all of plurality of electromagnetic control valves fail, the switching valve operating friction engaging devices in a combination to establish a first predetermined speed in the first position, and a second predetermined speed in the second position, and including the remaining structure and controls of claim 1, 5, 9, and 13, respectively. The present invention also particularly includes the switching valve maintaining the first position to establish said first predetermined speed when at least one electromagnetic control device fails, and including the remaining structure and controls of claims 17, 21, 25, and 29.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Roger L Pang whose telephone number is 571-272-7096. The examiner can normally be reached on 5:30am to 4:00pm.
